

**FACULTY POSITION IN PHARMACOLOGY
NORTH CAROLINA STATE UNIVERSITY, COLLEGE OF VETERINARY MEDICINE**

The Department of Molecular Biomedical Sciences invites applications for a state funded tenure track position at the **ASSISTANT** or **ASSOCIATE PROFESSOR** level in **PHARMACOLOGY**. The new faculty member will be expected to establish an independent research program, actively participate in the veterinary and graduate teaching programs, and have the opportunity to participate in the NC State Center for Comparative Medicine and Translational Research (CCMTR), located on the veterinary college campus. Opportunities at the CCMTR include new initiatives in veterinary clinical trials. The successful applicant will also have the opportunity to interact with clinical faculty in the new state-of-the-art veterinary teaching hospital scheduled to open in spring 2011. The specific teaching requirements will be tailored to the expertise of the individual and the needs of the college. Applicants must have a DVM (or its equivalent) and/or Ph.D. in pharmacology or a related field. Individuals with board certification in the specialty of clinical pharmacology are encouraged to apply.

Research Triangle Park, containing numerous pharmaceutical and biotechnology companies, is located within the Research Triangle formed by Raleigh, Durham and Chapel Hill, which are home to NC State University, Duke University, and UNC-Chapel Hill, respectively. Raleigh is located in central North Carolina, and both coastal and mountain communities are within a few hours' drive. The Triangle community of Raleigh, Durham, and Chapel Hill is active and culturally diverse and has been cited as one of the most desirable places to live in the United States. The quality of life in Central North Carolina is excellent, with many stimulating cultural, sporting, and outdoor activities.

Applications should include a current curriculum vita, a letter outlining specific professional goals, and the names and addresses of three references. For additional information or to submit an application, please visit <http://jobs.ncsu.edu> and reference position #60875. Questions can also be directed to Dr. Lloyd Fleisher, College of Veterinary Medicine, NC State University, 4700 Hillsborough St., Raleigh, NC 27606. Email: lloyd_fleisher@ncsu.edu. The review process for applications will begin on April 15, 2011.
